

SYLLABUS FOR POST-ASTT.TEACHER (L.T.)-SCIENCE
SUBJECT- CHEMISTRY
LEVEL- GRADUATE

Unit- A

- Atomic Structure.
- Periodic Properties.
- Chemical Bonding- Ionic bonding, covalent bonding.
- s-Block elements.
- p-Block elements.
- Chemistry of noble gases.
- Metallurgical processes.
- Chemistry of Transition elements (first, second and third series).
- Oxidation and reduction.
- Coordination Chemistry.
- Chemistry of lanthanides and actinides.
- Acids and bases.
- Non aqueous solvents.
- Magnetic Properties of transition metal complexes.
- Electronic spectra of transition metal complexes.
- Organometallic chemistry.

Unit- B

- Structure and bonding.
- Mechanism of organic reactions.
- Stereochemistry of organic compounds.
- Alkanes and cycloalkanes.
- Alkenes, cycloalkenes, dienes and alkynes.
- Arenes and aromaticity.
- Alkyl and aryl halides.
- Alcohols.
- Phenols.
- Ethers and epoxides.
- Aldehydes and ketones.
- Carboxylic acids and their derivatives.
- Organic synthesis via enolates.
- Carbohydrates, nitrogen containing organic compounds.

- Amino acids, peptides, proteins and nucleic acids.
- Hetrocyclic compounds.
- Organo-metallic compounds in organic synthesis.
- Spectroscopy of organic compounds, introduction.
- Electromagnetic spectrum; absorption spectroscopy.
- Infra red (IR) absorption spectroscopy.
- Nuclear magnetic resonance (NMR) spectroscopy.
- Vibrational spectrum.
- Rotational spectrum.

Unit- C

- Gaseous states
- Liquid state
- Solid state
- Colloideal state
- Chemical equilibrium
- Ionic equeilibria
- Phase equilibrium
- Chemical kinetics and catalysis
- Thermodynamics I
- Thermodynamics II
- Thermodynamics III
- Electrochemistry I
- Electrochemistry II
- Surface chemistry
- Elementary quantum mechanics
- Photo chemistry
- Solutions and colligative properties

Unit- D

- Green chemistry
- Bioinorganic chemistry
- Fats, oils and detergents
- Polymers
- Synthetic dyes
- Chromatography
- Pharmaceutical compounds.

SYLLABUS FOR POST- ASTT. TEACHER (L.T.)-SCIENCE
SUBJECT- BOTANY
LEVEL- GRADUATE

- Microbiology, fungi, lichens and elementary plant pathology.
- Algae, bryophyta and pteridophyta.
- Gymnosperms and taxonomy of angiosperms.
- Anatomy, embryology and morphogenesis.
- Ecology and biostatistics.
- Cytology, genetics, molecular biology and biotechnology.
- Physiology and biochemistry.
- Economic botany and plant breeding.

SYLLABUS FOR POST- ASTT. TEACHER (L.T.)-SCIENCE
SUBJECT- ZOOLOGY
LEVEL- GRADUATE

- Animal diversity- nonchordata, chordata.
- Embryology, animal behavior
- Applied zoology, toxicology
- Ecology and environmental biology.
- Microbiology and biostatistics.
- Taxonomy and evolution.
- Biotechnology and bioinformatics.
- Biological chemistry.
- Physiology.
- Cell biology.
- Genetics.
